

IPC CERTIFICATION TRAINING

**Industrial
Insite** LLC

Course Description

Demonstrate your commitment to meeting the high-quality standards of the electronic assembly industry by gaining certification in IPC's globally-recognized standards. Get qualified to get hired or help your current employer meet customer and regulatory requirements. Attend one or both certification classes offered jointly by Industrial Insite and Century College.

Dates & Times:

IPC-A-610 Specialist Acceptability of Electronic Assemblies. The most widely used standard published by the IPC, it has an international reputation as the source for end product acceptance criteria for consumer and high reliability printed wiring assemblies.

IPC-A-610 Initial and Recertification Class – Remote Training
October 5 – 9, 8:00 a.m. – 2:30 p.m. (Remote)

J-STD-001 Specialist Requirements for Soldered Electrical and Electronic Assemblies

The authority for electronics assembly manufacturing, the standard describes materials, methods and verification criteria for producing high quality soldered interconnections. It also emphasizes process control and sets industry-consensus requirements for a broad range of electronic products.

IPC J-STD-001 Initial and Recertification Class – Remote and In-Person Training

October 12 – 15, 8:00 a.m. – 2:30 p.m. (Remote)

October 19 – 21, 8:00 a.m. – 2:00 p.m. (Hands-on Lab at Century College)
